SER-6500/6540 II

SYSTEM ECR

Main Features

Fast Order Processing

- A large user-friendly keyboard provides enough preset PLU keys for even the largest menus.

Accurate Sales Information

- Promo and waste functions help provide accurate information for inventory analysis.

Employee Time Keeping

- SER-6500 II series tracks up to eight in/out cycles per employee per day, and reports summary time totals for up to 30 labor groups as well as average daily labor costs.

Full Order Store and Recall

- Organize your drive-thru window or phone order system with full order store and recall functions. Discounts or coupons can be added or voided at the time of pick-up.

Soft Check System

- Eliminate the need for expensive custom printed guest checks with the Samsung Check system.

Server Control

- Up to 99 servers
- Open check reporting by server
- Full media reporting by server including service, check paid, tips, etc.

Large Capacity PLU Files

- PLUs are assigned for all the items in your store to maintain individual sales data as a basis for reordering and inventory control.

Standard Inter-Register Communication (IRC)

- Up to 16 Terminals
- Program Downloading
- Report Consolidation

- SER-6500 II series built-in IRC(Inter-Register Communication) function will help the manager to organize the powerful system up to 16 terminals and to control the perfect store management.

- SER-6500 II series can connect the multiple peripherals such as Receipt Printer, Kitchen Video, Scale, etc. By connecting the proper peripheral, the manager can make the proper system organization in his business.
